

As Artists we will explore how to change texture and colour. We will use different media and materials to express our ideas and feelings. We will focus on creating 3D models of transportation.

As Musicians

We will sing in a group or on our own, increasingly matching the pitch and following the melody. We will find out the names of different instruments. We will explore how to make sounds in different ways and how to change sounds.

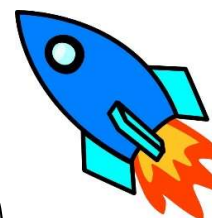

Personal, Social and Emotional Development

We will be focusing on our local environment and the contribution we can make looking after it. We will think about how we can look after our things and begin to develop our understanding of money, how it is used and how to look after it.

As Mathematicians we will be learning more about numbers 6,7,8
Comparing mass
Comparing Capacity, length and height
We will begin to learn the pairs of numbers that add up to 6,7, 8.
We will learn different strategies for addition and subtraction.

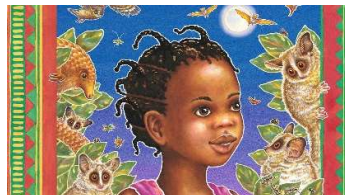

As Readers and Writers

We will listen to, sequence and retell stories, including Handa's Surprise, Lost and Found, and Whatever Next, among others. We will find out about different places and forms of transport using non-fiction books. We will use these stories as a stimulus for writing captions, lists, letters, instructions, and our own stories. We will use the sounds we know to read and write simple CVC words. We will continue to learn new phonemes from phase 3 phonics. We will practise our handwriting of learnt letters, ensuring the letters are formed correctly and are not too big or small.

Off on a journey

ELM CLASS – SPRING
1

As Geographers we will be finding out about different countries and journeys using stories as a stimulus.

We will also focus on Chinese New Year, finding out about the country and its traditions. 1/2/22

As Historians we will be focusing on bicycles and how we have used different types in our lifetimes and how bikes looked in the past.

As Computer Scientists: we will be using technological equipment to enhance our learning, e.g. we will use beebots to travel to different places, use old mobile phones to communicate in role play.

Writing on the laptop and chrome books.

As Scientists: We will be exploring different materials and observing their characteristics and how they change. We will also be exploring different forces and how they make things move.

We will be physical by continuing to join in our P.E. lessons where we will explore a range of different ways to move and using a range of apparatus. We will also be using different apparatus in the garden, including bikes, scooters, bats and balls and stilt. We will practise daily how to form our letters correctly. We will also be exploring what we need to do to keep healthy and safe and maintain our hygiene.

As Designers we will be concentrating on designing skills – thinking about the purpose of our models prior to starting, drawing designs and modifying our work to improve it.
