

## English

This half term we shall be focusing on using various sentence structures to write for a range of purposes. Our key texts will be the story 'Stone Age Boy', a travel brochure 'Skara Brae' and a set of instructions 'How to Wash a Woolly Mammoth'. Our writing will vary based on different technical skills such as being descriptive, writing informatively and instructing an audience.

## Art

In Art, we will be sketching faces and objects using different materials in order to add detail and shading. We will consider how to add dimension, textures and shading.

## Topic

This term in history the children will learn about Prehistoric Britain. We will develop our knowledge of the Stone Age, Bronze Age and Iron Age and focus on how and why things changed and understand how these changes affected the way humans lived. We will ask questions and try to find the answers and understand that our knowledge of pre-history is developing constantly with new archeological discoveries.

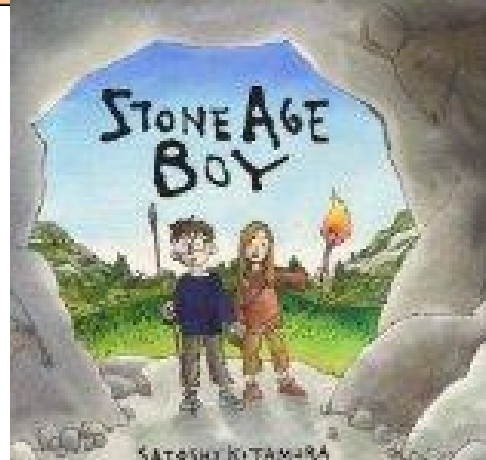

## PSHE

This term we are learning about rights and responsibilities. The children will begin to identify the difference between their wants and needs. They will be introduced to the idea of rights and why these are important, focussing especially on the UN Convention on the Rights of the Child.

## PE

We will focus on using our core skills to support communication and teamwork within a range of sports with a focus on basketball.

In basketball, we will look at key skills such as passing, dribbling and shooting before applying these skills and rules in a team game.

## Prehistoric Britain

### Oak Class

### Autumn One

## RE

In RE, we will be learning about Islam and why prayer is important within their religion. We will look at what the 5 Pillars of Islam mean to a Muslim and the importance of the Qur'an.

## Maths

As Mathematicians we will develop our knowledge of the number system. We shall focus on finding the place value of numbers to 1000 before placing them on a number line, ordering them and understanding their representations. We shall move on to securing our knowledge of addition and subtraction with larger numbers.

## Music

As musicians we will use the Charanga Scheme to discuss musical pieces, learn how to warm up our voices and bodies and move towards being able to sing and play our own music. Our initial song will be 'Let your spirit Fly'.

## Computing

As computer scientists' we will begin looking at creating media. We will start looking at how we use words and pictures and then move onto writing a publishing using a computer.

## Science

As scientists our focus this half term will be rocks. It will include looking at different types and properties of rocks, how fossils are formed and how soil plays a vital part in rock formation. We shall carry out a number of experiments to aid our learning.

## French

This term we will concentrate on how to greet each other before moving on to learning the days of the week and colours. The emphasis will be on conversational language and we will enjoy practising when we answer the register!
