

**As Artists** we will explore how to change texture and colour. We will use different media and materials to express our ideas and feelings. We will focus on creating 3D models of transportation.

**As Musicians**

We will sing in a group or on our own, increasingly matching the pitch and following the melody. We will find out the names of different instruments. We will explore how to make sounds in different ways and how to change sounds.

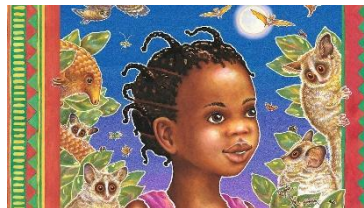

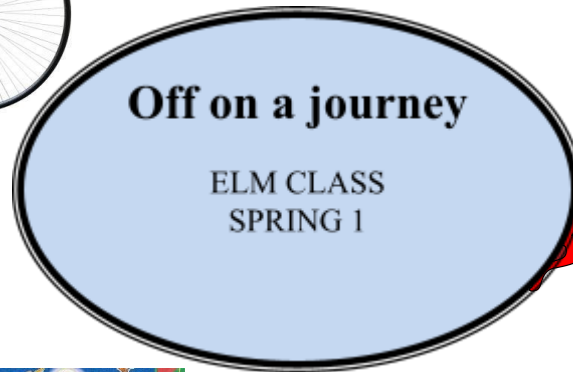

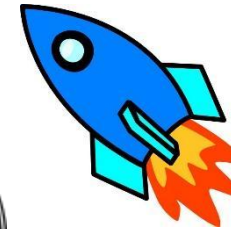

**Personal, Social and Emotional Development**

We will be focusing on our identity and the groups we belong to. We will be exploring how people have different beliefs and customs that are important to them. We will be developing our understanding of the importance of respecting other people's differences.

**As Mathematicians** we will be learning more about numbers 6,7,8  
Comparing mass  
Comparing Capacity, length and height  
We will begin to learn the pairs of numbers that add up to 6,7, 8.  
We will learn different strategies for addition and subtraction.

**As Readers and Writers**

We will listen to, sequence and retell stories, including Handa's Surprise, Lost and Found, and Whatever Next, among others. We will find out about different places and forms of transport using non-fiction books. We will use these stories as a stimulus for writing captions, lists, letters, instructions, and our own stories. We will use the sounds we know to read and write simple CVC words. We will continue to learn new phonemes from phase 3 phonics. We will practise our handwriting of learnt letters, ensuring the letters are formed correctly and are not too big or small.

**As Geographers** we will be finding out about different countries and journeys using stories as a stimulus.

We will also focus on Chinese New Year, finding out about the country and its traditions. 22/01/23

**As Historians** we will be focusing on bicycles and how we have used different types in our lifetimes and how bikes looked in the past.

**As Computer Scientists:** we will be using technological equipment to enhance our learning, e.g. we will use beebots to travel to different places, use old mobile phones to communicate in role play.

Writing on the laptop and chrome books.

**As Scientists:** We will be exploring different materials and observing their characteristics and how they change.

We will also be exploring different forces and how they make things move.

**We will be physical by** continuing to join in our P.E. lessons where we will explore different ways to move using a range of stimulus as starting points. We will also be using different apparatus in the garden, including bikes, scooters, bats and balls and stilts. We will practise daily how to form our letters correctly.

We will also be exploring what we need to do to keep healthy and safe and maintain our hygiene.

**As Designers** we will be concentrating on designing skills – thinking about the purpose of our models prior to starting, drawing designs and modifying our work to improve it.
